WEB DEVELOPMENT

MID-I ACTIVITY-BASED LEARNING ASSIGNMENT

THREE SELECTED CASE STUDIES

1. Personal Portfolio Website

2. NRI University College Website

3. Sweet Treats Bakery Website

STUDENT DETAILS

Student Name: SONTI MAHITHA SRI

Roll Number: 26000199

Department: CSE

Section: 3

Each case study is presented in order with its HTML code, CSS code, code explanation, and an actual browser screenshot of the rendered website.

Case Study 1: Personal Portfolio Website

A personal webpage presenting the student profile, education, technical skills, hobbies, projects, achievements, and contact information.

HTML Code — portfolio.html

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>My Portfolio</title>
  <link rel="stylesheet" href="portfolio.css">
</head>
<body>
  <header id="home">
    <h1>My Portfolio</h1>
    <p>SONTI MAHITHA SRI | Student | Beginner Web Developer</p>
  </header>
  <nav>
    <a href="#about">About</a><a href="#education">Education</a>
    <a href="#skills">Skills</a><a href="#projects">Projects</a><a href="#contact">Contact</a>
  </nav>
  <main>
    <section id="about" class="card">
      <h2>About Me</h2>
      <p>Hello! I am a student interested in technology, programming, and website design.</p>
      <p><b>Hobbies:</b> Reading, music, and drawing.</p>
    </section>
    <section id="education" class="card">
      <h2>Education</h2>
      <p><b>Course:</b> B.Tech - CSE</p><p><b>College:</b> NRI University, Vijayawada</p>
      <p><b>Semester:</b> First Semester</p>
    </section>
    <section id="skills" class="card">
      <h2>Technical Skills</h2><ul><li>HTML</li><li>CSS</li><li>Python basics</li></ul>
    </section>
    <section id="projects" class="card">
      <h2>Projects and Achievements</h2>
      <p><b>Project:</b> Portfolio website using HTML and CSS.</p>
      <p><b>Achievement:</b> Learning web development basics.</p>
      <p><a href="resume.txt">View sample resume</a></p>
    </section>
    <section id="contact" class="card">
      <h2>Contact Me</h2><p>Email: yourname@example.com</p><p>Location: Vijayawada, Andhra Pradesh</p>
    </section>
  </main>
  <footer><p>My Portfolio | Created with HTML and CSS</p><a href="#home">Back to top</a></footer>
</body>
</html>
```

CSS Code — portfolio.css

```
* { box-sizing: border-box; }
body { margin: 0; font-family: Arial, sans-serif; line-height: 1.6; background: #f1f8f4; color: #222; }
header { background: #176b45; color: white; text-align: center; padding: 28px 12px; animation: appear 1s ease-in; }
nav { background: #cdebd9; text-align: center; padding: 14px; position: sticky; top: 0; }
nav a { display: inline-block; margin: 5px 10px; color: #12452f; text-decoration: none; font-weight: bold; }
nav a:hover { color: white; background: #176b45; padding: 5px; border-radius: 4px; }
main { max-width: 900px; margin: auto; padding: 15px; }
.card { background: white; margin: 18px 0; padding: 20px; border-left: 5px solid #176b45; border-radius: 8px; }
h2 { color: #176b45; }
footer { text-align: center; background: #176b45; color: white; padding: 15px; }
footer a { color: white; }
@keyframes appear { from { opacity: 0; transform: translateY(-10px); } to { opacity: 1; transform: translateY(0); } }
@media (max-width: 600px) { nav a { margin: 5px; font-size: 14px; } .card { padding: 14px; } }
```

Code Explanation

• The HTML5 declaration and head section set up the page, title, mobile viewport, and linked CSS file.

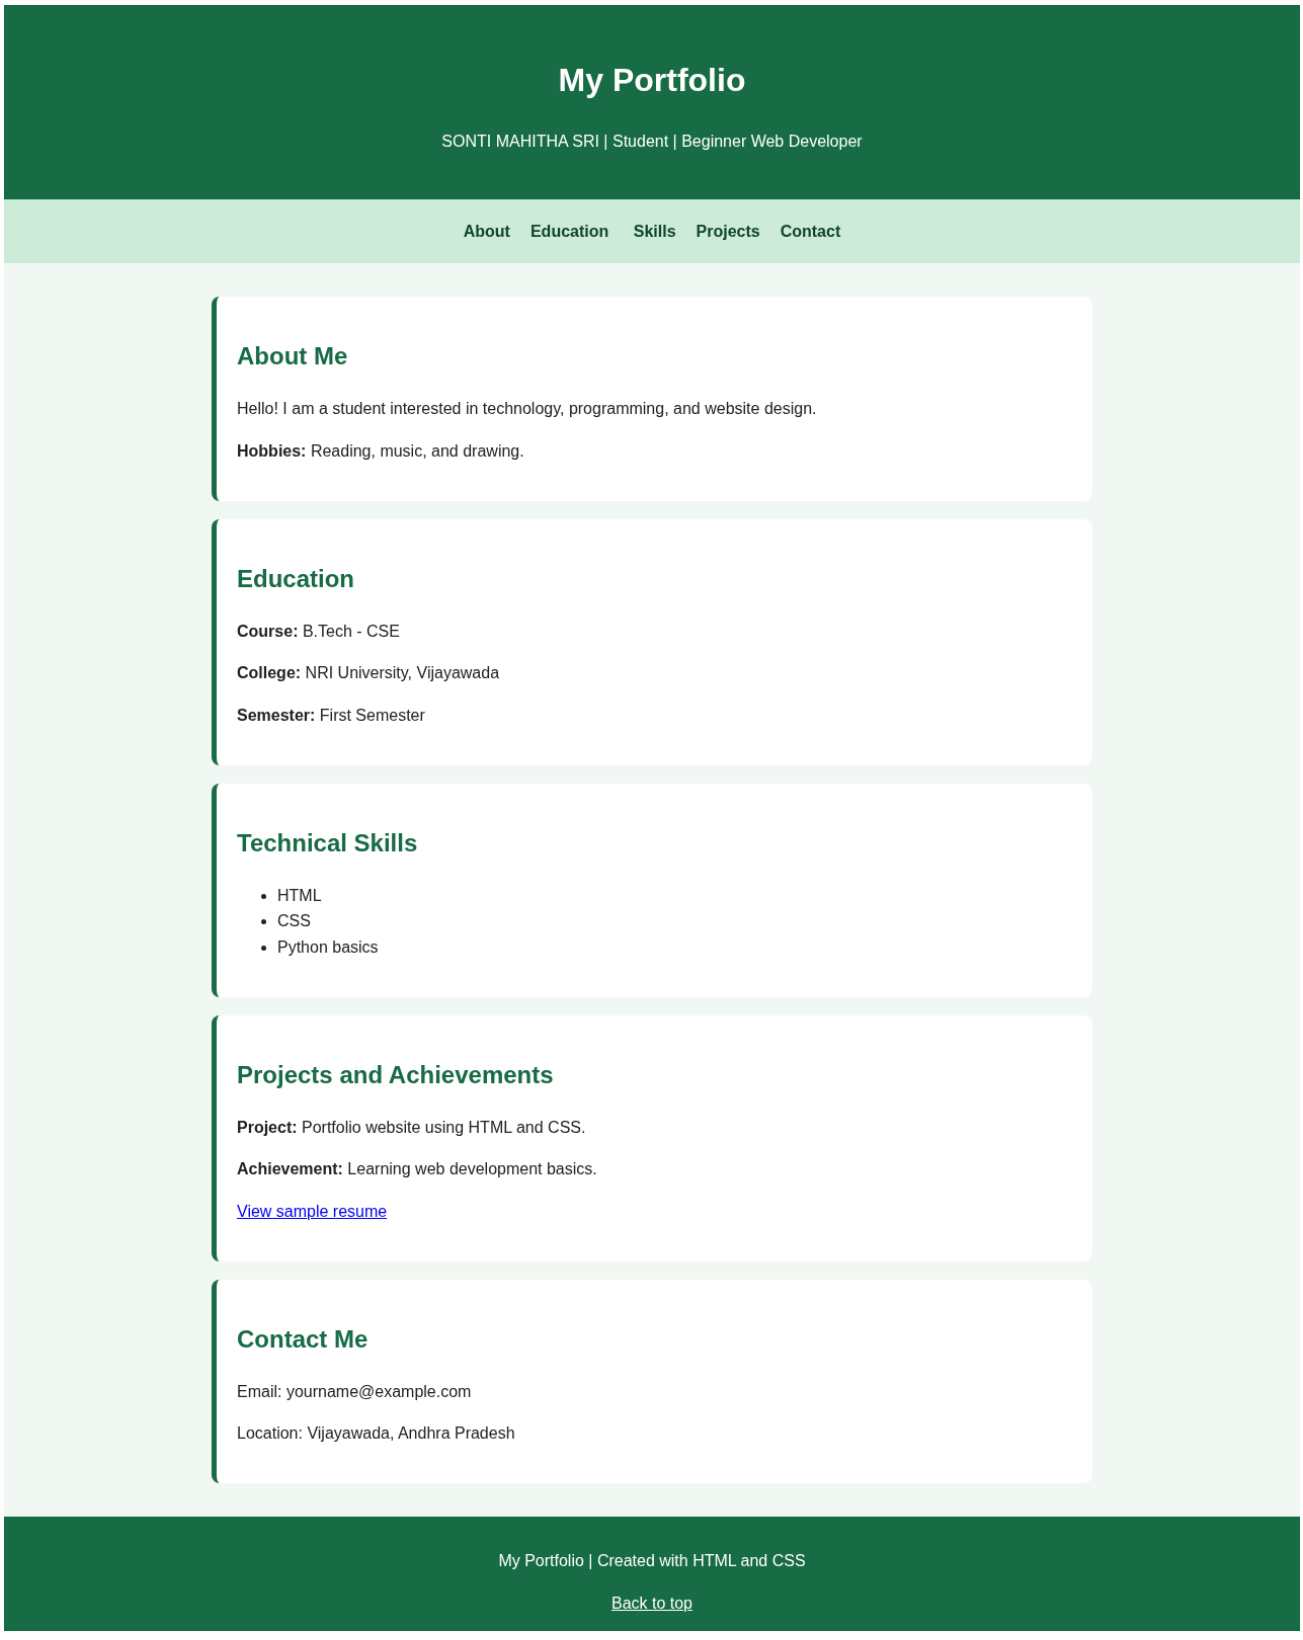

• The header shows the portfolio title and student name. Navigation links jump to page sections using their id values.

• The main section contains About Me, Education, Technical Skills, Projects and Achievements, and Contact Me.

• The CSS creates a green theme, spacing, white cards, a navigation hover effect, a header animation, and a mobile-friendly layout.

Actual Website Output (Browser Screenshot)

The image below is the website rendered in a browser from the HTML and CSS code above.

How to Run

Save the HTML file and its matching CSS file in the same folder, then open the HTML file in a web browser. The bakery page uses online product images, so an internet connection is needed for those images.

Case Study 2: NRI University College Website

A college information website for NRI University, Vijayawada, with sections for departments, faculty, admissions, facilities, and contact information.

Note: Course, faculty, admission, and contact details are sample placeholders. Verify official information before submission.

HTML Code — college.html

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>NRI University Vijayawada</title>

nav a:hover { text-decoration: underline; color: #b04428; }
.banner { text-align: center; color: white; padding: 45px 15px; background: linear-gradient(120deg, #254f91, #6b9bd1); }
main { max-width: 1000px; margin: auto; padding: 15px; }
section { margin: 20px 0; }
.card { background: white; padding: 18px; border: 1px solid #c6d5e8; border-radius: 8px; }
h2, h3 { color: #102e63; }
.grid { display: grid; grid-template-columns: repeat(3, 1fr); gap: 15px; }
footer { background: #102e63; color: white; text-align: center; padding: 15px; }
footer a { color: white; }
@media (max-width: 700px) { .grid { grid-template-columns: 1fr; } nav a { margin: 5px; } }
```

Code Explanation

• The header displays the university name, Vijayawada location, and “Deemed to be University”.

• The navigation bar links to the About, Departments, Faculty, Admissions, Facilities, and Contact sections.

• The welcome banner appears below the navigation. Three article cards display sample departments and courses.

• The admissions section uses an ordered list. Facilities are shown as a list, while faculty and contact sections contain placeholders.

• The CSS applies a blue theme, gradient banner, bordered cards, a three-column department grid, and a one-column layout on smaller screens.

Actual Website Output (Browser Screenshot)

The image below is the website rendered in a browser from the HTML and CSS code above.

How to Run

Save the HTML file and its matching CSS file in the same folder, then open the HTML file in a web browser. The bakery page uses online product images, so an internet connection is needed for those images.

Case Study 3: Sweet Treats Bakery Website

A bakery website featuring a menu, product images, custom cake information, a seasonal offer, an about section, and contact details.

HTML Code — bakery.html

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

.products { display: grid; grid-template-columns: repeat(3, 1fr); gap: 16px; }
.product { background: white; padding: 12px; text-align: center; border: 1px solid #f0b4c7; border-radius: 8px; }
.product img { width: 100%; height: 180px; object-fit: cover; border-radius: 5px; }
.card, .offer { margin-top: 20px; padding: 18px; border-radius: 8px; }
.card { background: white; border: 1px solid #f0b4c7; }
.offer { background: #ffe0a8; text-align: center; }
footer { background: #c93669; color: white; text-align: center; padding: 15px; }
footer a { color: white; }
@media (max-width: 700px) { .products { grid-template-columns: 1fr; } .product img { height: 220px; } }
```

Code Explanation

• The header displays the bakery name and a short slogan. The navigation links move to menu, custom cakes, offers, about, and contact sections.

• The hero section highlights the “Made with Love” message.

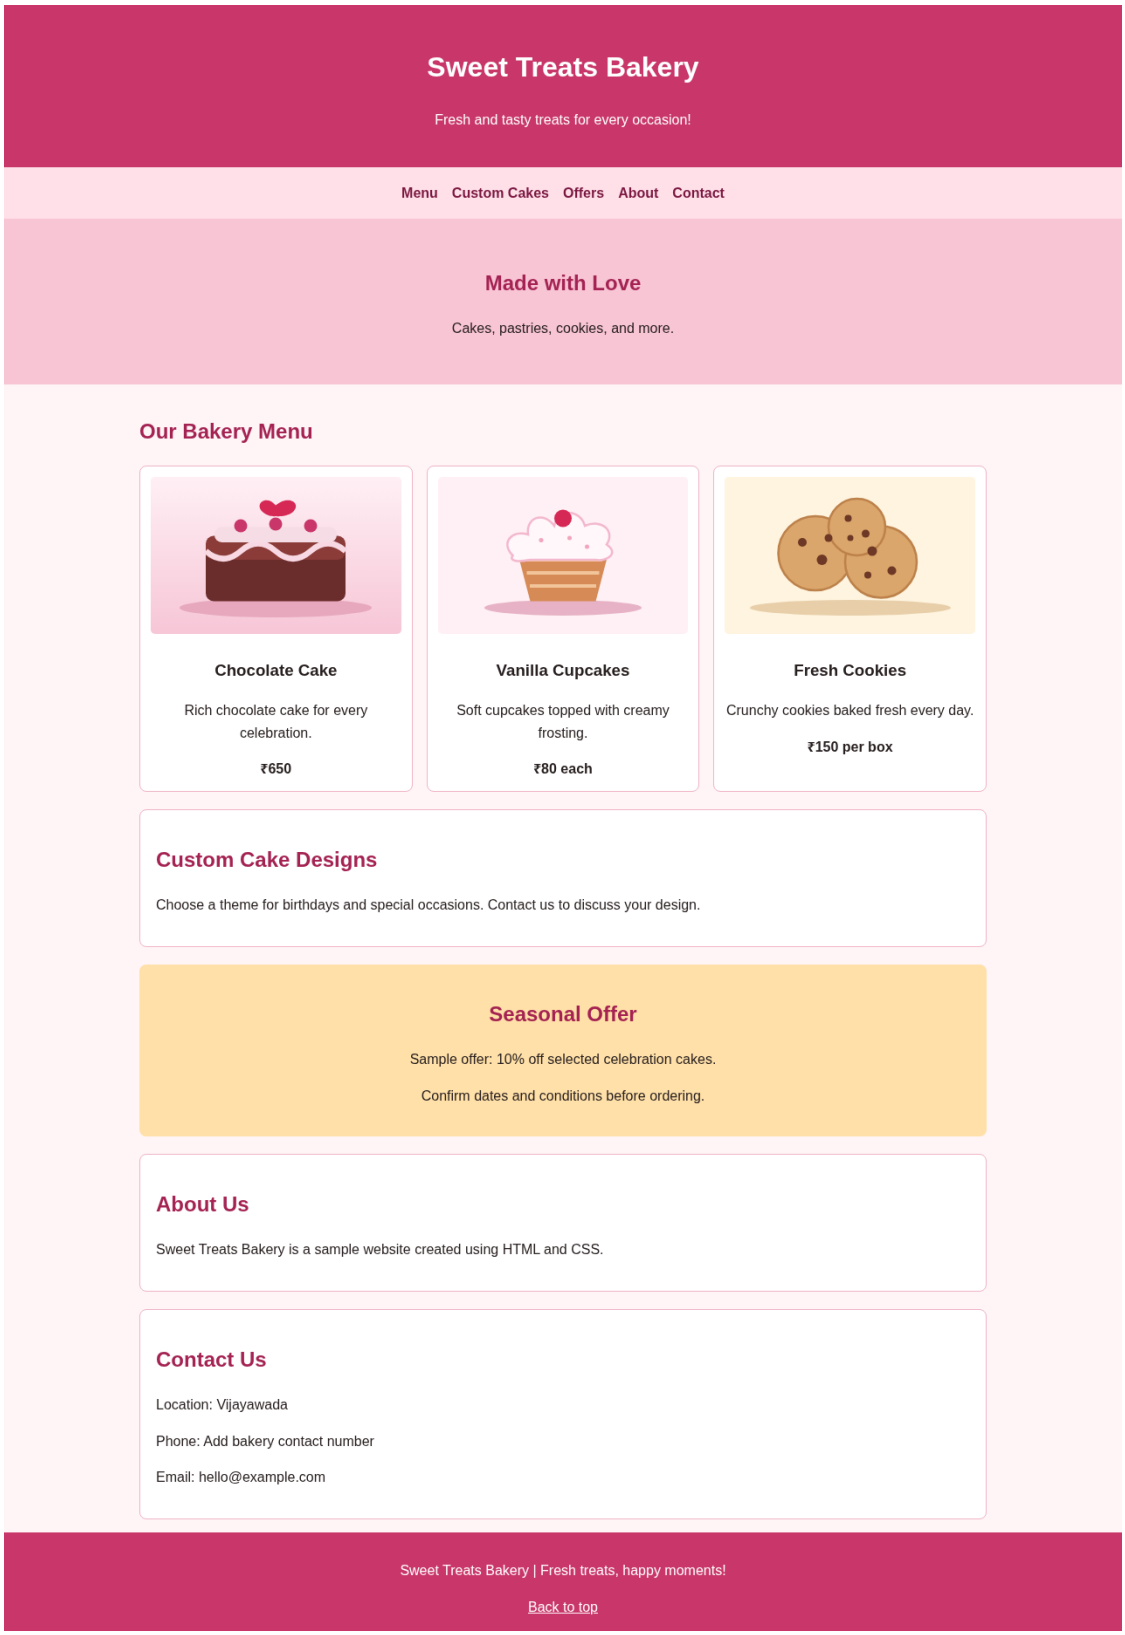

• The menu uses product cards with images, names, descriptions, and sample prices.

• Separate sections describe custom cake designs, a sample seasonal offer, the bakery, and contact details.

• The CSS creates a pink theme, product cards, a highlighted offer box, image sizing, and a responsive one-column menu on small screens.

Actual Website Output (Browser Screenshot)

The image below is the website rendered in a browser from the HTML and CSS code above.

How to Run

Save the HTML file and its matching CSS file in the same folder, then open the HTML file in a web browser. The bakery page uses online product images, so an internet connection is needed for those images.

FINAL CHECKLIST

- Keep each HTML file with its matching CSS file in the same folder.
- Test navigation links and page layout in a browser.
- Replace sample contact details and resume link before submission.
- Verify official NRI University details before presenting sample information as factual.
- The website screenshots in this document show the actual browser-rendered pages.
